# Details and Add-Ons

- Add-ons**
- ☐ Rot Board
  - ☐ Pet Dome
  - ☐ Top Cap

While a fence serves a functional purpose, it doesn't have to be boring. Bring some personality into your fence with a top cap (decorative piece of wood along the top), a rot board (goes along the bottom of your fence to avoid rotting the bottom of your pickets), pet dome (gives your pet the ability to see what's happening on the other side of the fence), or change the orientation of your boards and/or pickets to give your fence a more modern look.
